

Guillem Fernandez

Engineering Director

I define myself as a **People Engineer**. I've been involved in IT Engineering since I left College. I've **founded** two companies, helped create two more from zero to success, and been involved in many other initiatives.

I am **teaching** at University of Barcelona because I love to share my experience. In general I love **challenges**.

WORK EXPERIENCE

Engineering Manager

2020 - Present

BUMBLE / Barcelona, Spain

- Being part of the Friendship business line in Bumble, I am in charge of a team of engineers coming from different backgrounds.
- The goal in this position has been to create high performance and cohered teams, built on the concept of independence, good practices and commitment with the project.

CEO & Cofounder

2019-2020

CoKaiDo / Barcelona, Spain

- I founded this company in 2019. My role as CEO in this project was to drive the business to become the most successful company in expert and high-level training and help our clients to get ownership of the expertise and best practices.
- I created CoKaiDo as the central source of improvement for companies that wanted to go one step forward and build high performance teams.

Managing Director

2016-2019

Codurance / Barcelona, Spain

- As a Managing Director I am responsible of running Barcelona Codurance's office, taking care of business operations and provide consultancy and training services to our clients.
- Our daily work is based in helping our customer to acquire the necessary skill to be able to work applying engineering best practices.

Senior Lead Developer - PaddyPower

2015-2016

Senior Lead Developer - Stella&Dot

2013-2015

Senior iOS Developer - Freelance

2012-2013
